

# RFID UHF DESKTOP READER & WRITER

## SRK- UDR6

| Product Key Parameters |                                      |
|------------------------|--------------------------------------|
| • Product Name         | UHF Desktop RFID card writer         |
| • Brand & Model NO.    | RS-F205                              |
| • Dimension            | 104.5*69*10.5 mm                     |
| • Protoco              | (EPC Gen2) ISO18000-6C (GB)          |
| • Frequency            | 902~928MHz / 865~868MHz (Adjustable) |
| • RF output            | 0~26 dbm                             |
| • Work Principle       | FHSS / Fixed frequency               |
| • Reading Distance     | 0~20 C M (Adjustable)                |
| • Reading Speed        | >20 times/s                          |
| Working Parameter      |                                      |
| • Power Supply         | +5V USB                              |
| • Power Dissipation    | <2W / H                              |
| • Work Tip             | Buzzer/led                           |
| • Temperature Range    | -10°C~+55°C                          |
| • Humidity Range       | 20%~95% (No condensation)            |
